

Pachycereus marginatus

COMMON NAME	Mexican Fence Post Cactus
FAMILY	Cactaceae
ORIGIN	Mexico
EVERGREEN	Yes
FLOWER COLOUR	Pink - Green
BLOOMTIME	-
SYNONYMS	Cereus marginatus (basionym)
HEIGHT	3 - 3.5 Metres
WIDTH	1 Metre
EXPOSURE	Full Sun
SEASIDE	-
IRRIGATION	Low Water Needs
WINTER HARDINESS	-

FURTHER READING:

These extraordinarily low-maintenance plants can basically grow untouched for decades, so there's not a lot you need to worry about. Obviously, it's very important that they receive adequate sun and heat, and be careful around their spines. If grown in containers, make sure that they're being repotted and that their soil isn't too moist. Other than that, these plants are about as simple and hands-off as it gets.
