HEIGHT	1 - 1.5 Metres
WIDTH	1 - 1.5 Metres
EXPOSURE	Sun or Shade
SEASIDE	Yes
IRRIGATION	Low Water Needs
WINTER HARDINESS	-4° C

FURTHER READING:

A large rosette succulent that forms a large cluster with individual rosettes atop a stout gray stem. The wide blue gray pliable leaves lack any teeth along the margins and emerge from a tight central spear to arch gracefully back, looking like a large open gray-blue flower. Plant in full coastal sun in a well-drained soil, but will look its best with occasional watering.
