

Nolina nelsonii

COMMON NAME	Blue Nolina
FAMILY	Nolinaceae
ORIGIN	Mexico
EVERGREEN	Yes
FLOWER COLOUR	White
BLOOMTIME	Spring
SYNONYMS	[<i>Nolina nelsoni</i> , Hort.]
HEIGHT	1.5 - 3 Metres
WIDTH	1 - 1.5 Metres
EXPOSURE	Full Sun
SEASIDE	-
IRRIGATION	No Irrigation Needed
WINTER HARDINESS	< -17° C

REQUIREMENTS:

A large slow growing evergreen succulent tree-like shrub to 1.5 - 3 metres tall or more, but usually seen from 1 - 2 metres tall. One or more stems bear dense rosettes with many narrow moderately-rigid but not sharp, pointed, 2 - 5cm wide by 1 metre long leaves that are a very attractive silvery blue-green colour and have finely-toothed margins. Mature plants produce a 1.3 metre tall stalk in spring, bearing thousands of small lightly-fragrant white flowers, after which the flowering rosette dies and is replaced from below.
