

Cussonia spicata

COMMON NAME	Cabbage Tree
FAMILY	Araliaceae
ORIGIN	South Africa
EVERGREEN	Yes
FLOWER COLOUR	Green and White
BLOOMTIME	Spring/Summer
SYNONYMS	-
HEIGHT	7.5 - 12 Metres
WIDTH	4.5 - 9 Metres
EXPOSURE	Sun or Shade
SEASIDE	-
IRRIGATION	Medium Water Needs
WINTER HARDINESS	-4° C

FURTHER READING:

An unusual and attractive evergreen tree to 12 metres or more, with large dissected green leaves, held in large heads at the ends of thick soft wood stems that twist and turn in an unusual manner. At the tips of the branches can appear the small greenish-yellow flowers in short spikes in late spring to summer. Plant in full sun to light shade and water regularly, though older plants are quite drought tolerant.
