FLOWER COLOUR	Cream and Pink
BLOOMTIME	-
SYNONYMS	-
HEIGHT	8 - 11.5 Metres
WIDTH	-
EXPOSURE	-
SEASIDE	Yes
IRRIGATION	Medium Water Needs
WINTER HARDINESS	-

FURTHER READING:

The Whitsunday bottle tree is an iconic species found only within the catchments that drain into Pioneer Bay and the Airlie Beach area and offshore islands including Hook, Armit and Double Cone Islands. This very limited distribution puts the species under threat from urban and rural residual expansion.
